Is ChatGPT (LLMs) telling the TRUTH ?

In school, our job is to teach our students to **find the truth, tell the truth and guard the truth**

Bella Whitice talks with classmate Katherine McCormick as they try and outwit the "robot" that was creating writing assignments in Donnie Piercey's class at Stonewall Elementary in Lexington, Ky., Monday, Feb. 6, 2023. The robot was the new artificial intelligence tool ChatGPT which can generate everything from essays and haikus to term papers in a matter of seconds.

How did we find the truth ?

- Before the internet
- During Google
- Now with LLMs

Facts

→ Truth

→ Trust

→ Good decisions

→ Accountability

Human uncertainty
(ex. “perhaps”, “it looks like”, “it seems”, “probably”)

versus

ChatGPT’s high confidence!

Human assistant

versus

The LLM super-assistant: Smart, confident, but an occasional liar

With this new AI revolution that is disrupting work and education for the next few years,

What is our responsibility as educators and administrators ?

“Then you will know the truth, and the truth will set you free.”

John 8:32

Thank you
