We must never forget

"who we are whom we are for and what we have to do for those for whom we are."

Prof. Tomas Lopez Jr.

…from Secretary Herminio B. Coloma, Jr.

- "Many years from now, it will not matter how much wealth or riches we may have accumulated, but the world will be a better place because we made a difference in the lives of the people that we have served"

Revolution in the education system is necessary if we are to use education in promoting equal opportunity to learn and in building social capital!

A Revolution is Necessary

- Even for good schools, the time to change is **NOW**
- And change must not be merely reformative: it needs to be truly **TRANSFORMATIVE** (and that means: **REVOLUTIONARY**)
- Change has to be achieved first in **the field of ideas**, in our **"mindsets"**
