Goals for this session

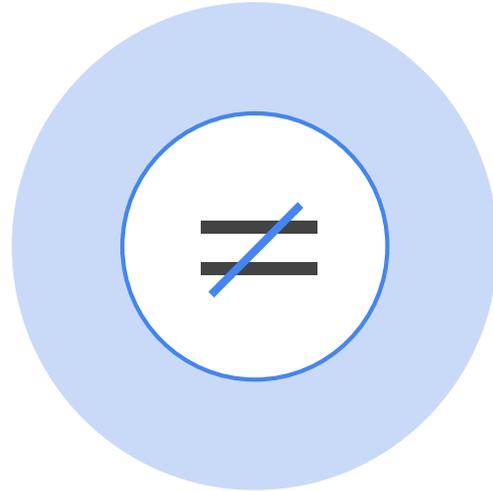

- 1 Understand what **training** is available to learn more about using Google tools effectively
- 2 Understand the various **certifications** available to educators
- 3 Understand how to **get started** with Google Educator Certifications

In our schools
nobody wants
technology usage

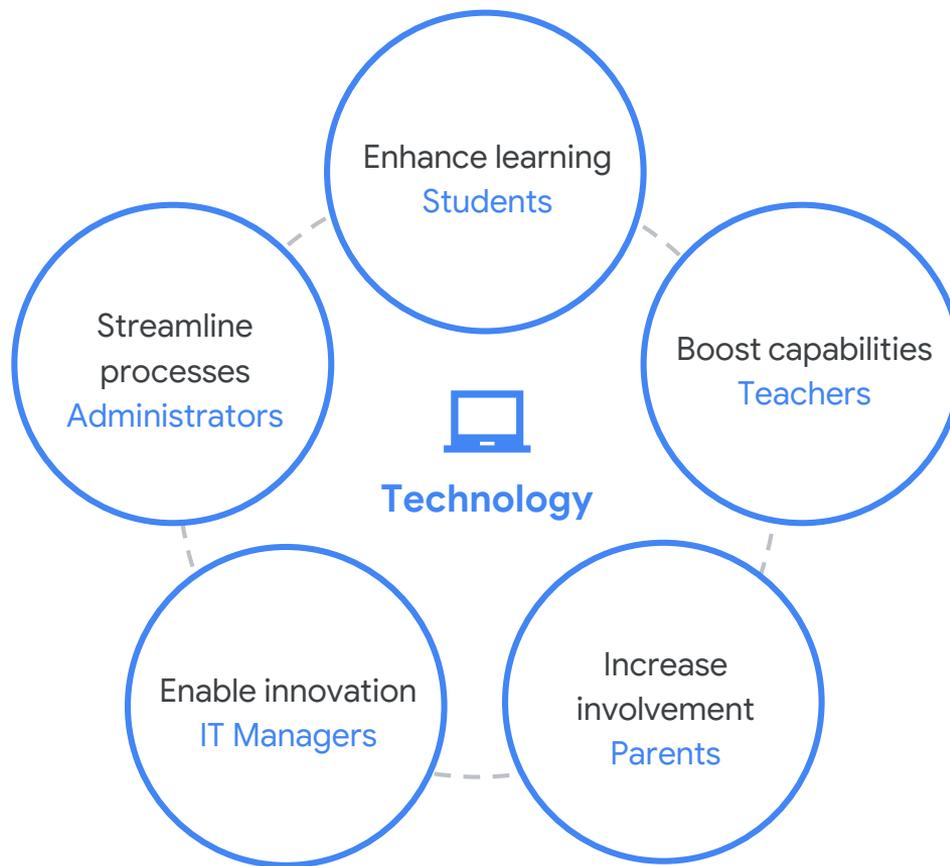

Technology

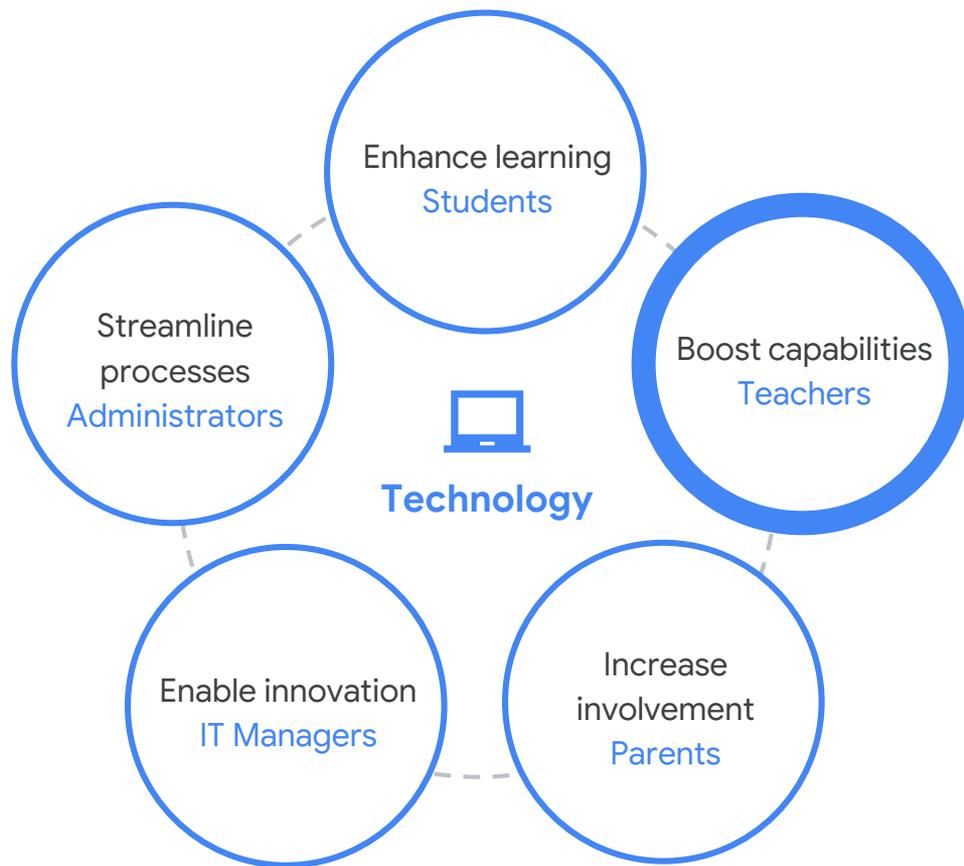

Innovation

Technology can
empower the
whole ecosystem

Technology can
empower the
whole ecosystem

Technology can be a powerful tool, but alone it's not transformative

Steps to impactful use of technology

Access

Provide affordable and effective tools and devices so that students and teachers can access technology

Adopt

Build knowledge and comfort so that students and teachers can adopt technology

Transform

Drive systemic change and cultural shifts and so that your schools can transform with technology

Steps to impactful use of technology

Access

Provide affordable and effective tools and devices so that students and teachers can access technology

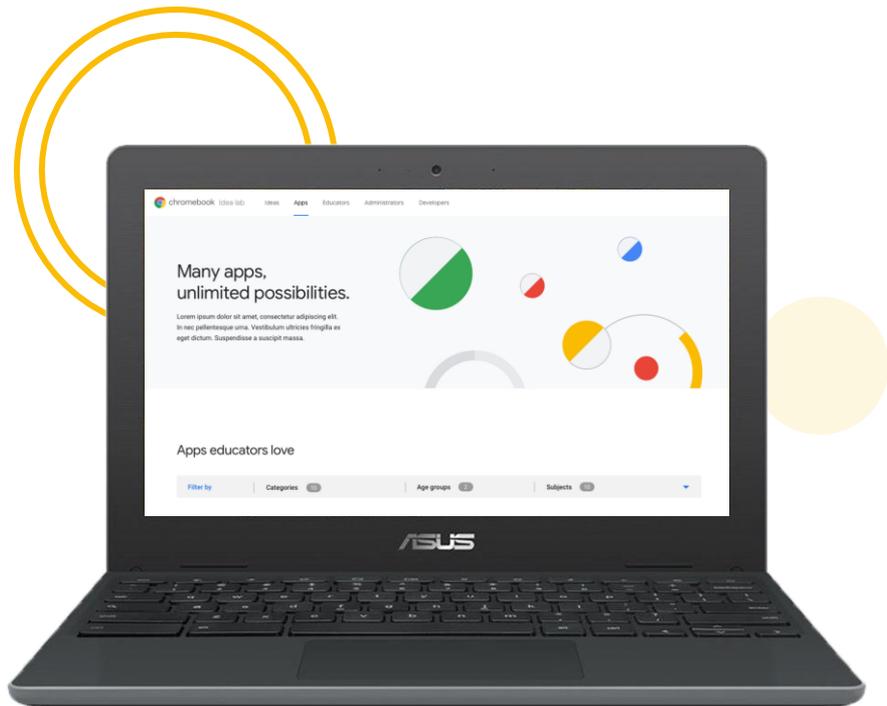

Adopt

Build knowledge and comfort so that students and teachers can adopt technology

Transform

Drive systemic change and cultural shifts and so that your schools can transform with technology

Google for Education

Shareable devices and collaborative tools built for teachers and students.

Google Educator **Certifications**

For teachers solving real problems in real classrooms with Google Tools, get recognised as **Google Certified Educators**.

Level 1 and 2 Certifications establish a significant degree of proficiency with technology.

They also act as prerequisites for the more advanced certifications.

What were the **results**?

After Level 1 training:

- **95%** of students reported they felt “confident” or “expert” in the use of **Drive, Docs and Slides** (30%↑)
- **90%** felt “confident” or “expert” in **Sheets, Forms and Calendar** (46%↑)
- **85%** felt “confident” or “expert” in **Google Classroom** (62%↑)
- Similar improvements were seen across other tools like **Sites, Meet and Jamboard**

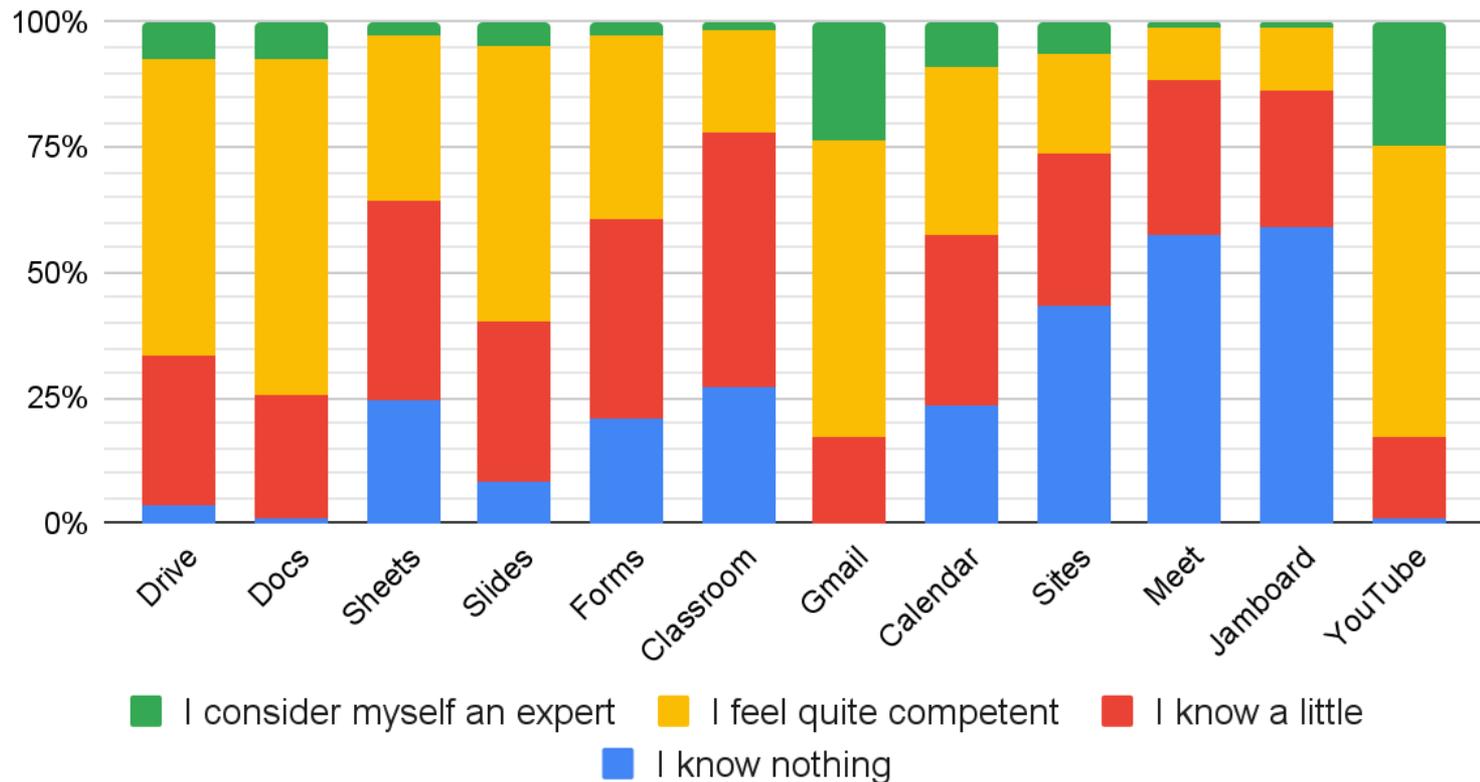

Does certification make a **difference**?

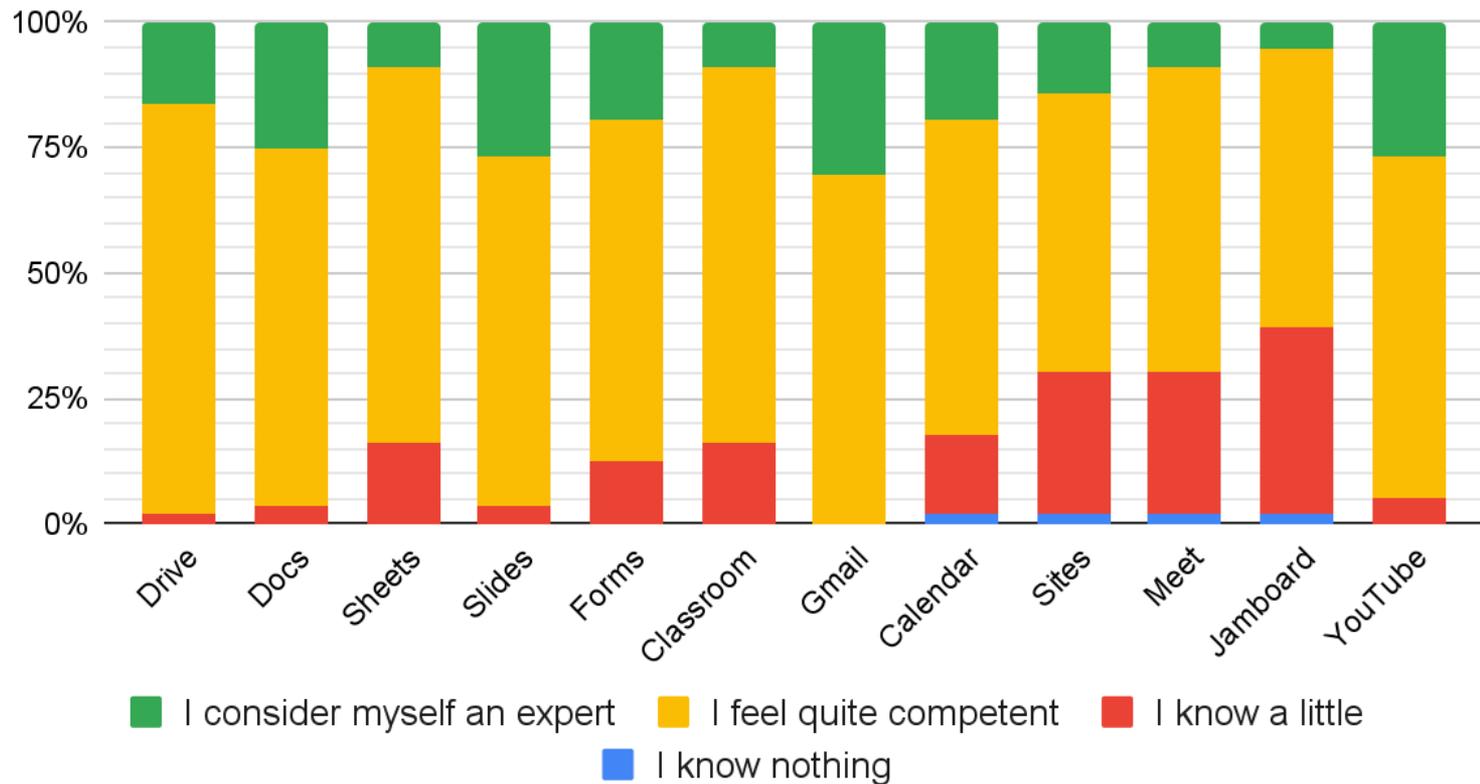

Google Workspace for Education is **used widely** in schools around the world.

New teachers entering the profession from university often feel insufficiently prepared in the effective use the Google toolset.

Self assessment BEFORE completing the course

- Coach Skills Assessment
- **Level 1 and 2 Certification**
- Create coaching portfolio
- Submit application

Google Certified Innovators

The **Google Certified Innovator** program recognises and supports leading educators around the world to launch an innovation project aimed at solving meaningful challenges in education.

The Innovator community has over 2200 passionate educators in over 50 countries advocating for educational transformation.

Applications now open for 2022

Google for Education
Certified Innovator

- Identify a meaningful challenge
- Demonstrate a history of innovation
- Demonstrate reach and impact
- **Level 2 Certification**
- Create your application video
- Submit application
- Attend an Innovator Academy

Google Educator Groups

Google Educator Groups (GEGs) are user-driven communities of passionate educators who bring the benefits of technology to schools, classrooms, and communities across the world.

They meet regularly online or in-person to support each other.

- There are 11 GEGs in Australia and NZ
- Each group is organized by a local volunteer GEG leader
- Start a GEG in your local area!

Google Reference Schools

Google Reference Schools

demonstrate exemplary and embedded use of Google technologies in the classroom and foster an innovative learning environment that produces positive learning outcomes.

Google Reference Schools excel across the seven elements of the transformation framework and share their stories of impact with other schools.

Google for Education
Reference School

- Schoolwide use of Google Workspace
- Significant use of Google Classroom
- Significant use of Chromebooks
- Educator Certifications
- Evidence of transformative practice
- Share your school story
- Invitation only program

Questions

Steps to impactful use of technology

Access

Provide affordable and effective tools and devices so that students and teachers can access technology

Adopt

Build knowledge and comfort so that students and teachers can adopt technology

Transform

Drive systemic change and cultural shifts and so that your schools can transform with technology
